

Central PA Energy Summit

- ✓ Energy affordability
- ✓ Energy reliability
- ✓ Energy access in Central PA

Participate in the Central PA Energy Summit to delve into the topics of energy affordability and accessibility within Central PA.

In 2023, over 300,000 households in the area faced utility disconnections. The summit will showcase presentations and dialogues involving various organizations and advocates, emphasizing key concerns and approaches for future endeavors.

All individuals with an interest in energy-related matters are welcome!
