

GENERAL CONTRACTING

Since 1985, A. Pickett Construction, Inc., has been a “one-stop-shop” for multi-market General Contracting and Construction Management Services.

As General Contractors, we strive to be the kind of construction partner that architects and owners love to have at their table beside them.

A. Pickett Construction’s General Contracting Services go above and beyond by offering a multitude of Pre-Construction Services such as:

- Expert advice provided in order to understand expectations and associated costs
- Preliminary free estimates / bids
- Budgeting assistance
- Permit expediting

Our team includes a staff of highly skilled and competent craftsmen who enable us to self-perform tasks. Their expertise allows us to expedite project completions while successfully managing subcontractors and costs. We are proud of our excellent relationships with our numerous subcontractors, who permit us to assemble the right team for every project.

“BUILDING YOUR FUTURE”

“My personalized preventive maintenance program saved me from replacing my hot water heater. That’s important to my bottom line. “

Pickett Facilities Maintenance continues to be the premier full service, uniformed and bonded facilities maintenance professionals who self-perform service calls for electrical, plumbing, carpentry, millwork, wall coverings, floor coverings, store closeouts and much more.

We provide a comprehensive service menu capable of performing within the customer’s budgetary restraints, 24 hours per day, 365 days per year. We can also work with clients to develop a preventative maintenance program that fits their needs and financial plan.
