Newsletter of the Lewisburg Area School District | Autumn 2018

Setting the Course for LASD's Future

What were you doing in 2007? Were you thinking very much about the year 2020? Did it seem like a long way away? For the Lewisburg Area School District and its community members, they were meeting to plan what the school district would look like in 2020. The plan they created, Vision 2020, has provided a vision and direction of sustained excellence for our community and the students we serve. It's been a few years since the District produced a "Back to School" newsletter for the purpose of this communication is much more than that. As a member of the Lewisburg Area School District community you are receiving this both as a celebration of the many achievements that came about as a result of vision 2020 and also as a call to action to set the course for the future of the District beyond 2020. The results of Vision 2020 have been both easily recognizable and taking place behind the scenes. Full-day kindergarten, implementation of a one-to-one technology initiative, and the construction of the new high school are all the results of goals established in Vision 2020. So too are the day-to-day improvements in lesson planning, instruction, and continued focus on students' individual academic and social-emotional needs. It's been a year now that I have had the privilege to serve as your superintendent. Throughout this year, I have been asked several times, "What's next?" My response has been, "We will figure that out together." So that's what we begin the next strategic planning process today. From today and throughout.

Steven C. Hinkle, Ed.D.
Superintendent

Medicare Advisors of PA, LLC

Finding the right Medicare coverage is complicated. We can help.

Medicare Advisors of PA are independent, Pennsylvania licensed agents providing advice, education and assistance to help you make the best decisions in choosing your Medicare coverage.

Along with helping you understand Medicare, we can help you with plan choices, and provide ongoing support on all Medicare coverage plans.

We provide unbiased advice and options because we are working for you, because complete service offers you the best of service because their employees are paid to enroll in their plan.

We are Medicare specialists focusing only on problems for people with Medicare, unlike a general insurance agent, who only offers a few Medicare products.

At Medicare Advisors of PA we help you successfully navigate the complex world of Medicare coverage.

Solving the Medicare Puzzle
Medicare Advisors of PA provides Medicare help, advice and insurance services to any resident of Pennsylvania. 570.275.8151

VISION THERAPY

Can Make a Significant Difference

Stroke Head Trauma Reading Difficulty

Each of these afflictions usually come with a shut down of the visual field. Dr. Betty Hancock's advanced vision therapy helps patients to regain that field leading to better balance, orientation, focus, coordination, and learning. If you're in physical therapy, it also allows for a faster and more complete recovery.
